

Product Specification Report

Rev. 1.1

BRAKE WASH NEW is a non-chlorinated solvent available in spray cans. It is fast acting and designed specifically for cleaning mechanical parts and brakes in particular.

BRAKE WASH NEW Non-chlorinated grease-dissolving solvent for brakes

FEATURES:

Rapid evaporation	It evaporates quickly and completely without leaving residues and without affecting the functionality of the brakes.
Non-chlorinated	It does not contain chlorinated solvents and is therefore safe for the operator.
Cleaning action	Dissolves and eliminates deposits of oil, grease, brake fluid and dust.

SPECIFICATIONS:

FormAerosol
 ColourColourless
 Odour.....Solvent
 Density at 20 °C0,717 g/cm³
 VOC.....97,3%
 Net volume600 ml
 Gross volume800 ml

ACTIVE INGREDIENTS:

✓ Mixture of selected solvents

SAFETY PRECAUTIONS:

For more information please refer to the safety data sheet.

INSTRUCTIONS FOR USE:

Shake the spray can well before use. Spray the product on the parts of the brakes to be cleaned from a distance of about 25 cm. Dry thoroughly with a cloth and wait for any residue to evaporate. If there are still traces of dirt, apply the product a second time.

COMPATIBILITY:

Compatible with metal parts and brake pads. Will not damage rubber parts or coatings if applied briefly; avoid prolonged and repeated application on rubber parts.

All information in this document is based on our practical experience and/or laboratory tests. Due to the multiplicity of conditions for usage and variable human factors, we recommend that you always test our products for suitability prior to use. At any time, this version of the product specification report may have been revised based on legislation, availability of the individual ingredients or newly acquired information. The current approved version is available upon request.
